

**National Association of Railway Business Women
2026 National Convention – Roanoke, Virginia
National Convention Welfare Project
May 1 - 2, 2026**

This year's Convention Welfare Project shines a spotlight on service by partnering with the Lions Club to collect eyeglasses that can change lives for children and adults in need.

Gently used eyeglasses may be donated to support the Lions Club programs, including prescription and non-prescription sunglasses as well as over-the-counter reading glasses.

The Lions Club has supported this important initiative for many years, helping address the needs of an estimated 120 million people worldwide who are visually impaired due to uncorrected refractive errors such as near- and farsightedness. In many cases, normal vision can be restored with proper eyewear or other corrective measures. Without access to glasses, children and adults may be denied opportunities for education, employment, and an improved quality of life.

We encourage all members to begin collecting used eyeglasses for this meaningful and rewarding welfare project. Your participation will help make a real difference by improving sight and transforming lives.

See the Lion's Club ["Sight First" brochure here](#).

Thank you in advance for supporting this important initiative.
